SKILLS SUMMARY

Languages: C++, C#, JavaScript, Python.
Development: HTML, CSS, ReactJs, NodeJs, ExpressJs, NextJs, Asp.NET, SQL, NoSQL.
Tools & Platforms: Azure Cloud, Git, GitHub.
Soft Skills: Problem Solving, Project Management, Adaptability, Leadership.

EDUCATION

Indian Institute of Information Technology (IIIT) Bhopal **2021 – 2025**
B.Tech in Electronics and Communication Engineering
***CGPA**: 7.77*

Govt. Higher Secondary School Amlai No3, Shahdol (M.P.) **2019 – 2020**
Higher Secondary School
Grade: 81.60%

EXPERIENCE

Cognizant Technology Solutions **Feb 2026 – Present**
Programmer Analyst Trainee

- Managed API integrations and candidate lifecycle workflows across enterprise assessment platforms ensuring 99% data accuracy. Automated test orchestration and status validations to streamline digital exam booking processes reducing sync delays.
- Monitored cloud microservices, scheduled batch jobs, and third-party endpoints to ensure smooth high-volume assessment delivery.
- Resolved integration exceptions, test amendments, and data sync issues across middleware layers during live cycles.

PROJECTS

Smart Student Evaluation & Mentorship Platform Github
Node.js, PostgreSQL, ReactJs and Gemini Ai

- Architected a full-stack academic platform for grade management and query workflows across three user roles.
- Integrated Gemini AI to automatically generate personalized performance diagnostics, remedial textbook recommendations, and targeted YouTube learning links for struggling students.
- Built modular, role-based dashboards featuring batch grading matrices, real-time metrics, interactive performance charts, and direct student-faculty query resolution channels.

Gym Membership & Access Control System Github
ASP.NET Core with C# and PostgreSQL

- Engineered a backend architecture for a gym application using ASP.NET, C#, and PostgreSQL, focusing on structured data organization.
- Implemented core administrative features enabling gym owners to manage member accounts, track daily attendance, and oversee subscription memberships.
- Integrated the Gemini API to provide automated AI-driven fitness tips and personalized workout recommendations for gym users.

Achievements

DSA & Problem Solving: Solved 500+ data structure and algorithm questions on LeetCode with a strong emphasis on optimal time-complexity solutions.
Competitive Coding: Actively practicing daily DSA problems to enhance core algorithmic thinking and logical reasoning skills.

CERTIFICATIONS

Claude AI: Self-Paced Development – Cognizant (Udemy Business)
Gained hands-on experience in advanced prompt engineering techniques and LLM integration concepts.
ReactJS Development – Simplilearn
Developed responsive applications utilizing component-based architecture and state management.
Node.js Backend Development – Simplilearn
Built scalable backend services featuring RESTful APIs, JWT authentication, and modular architecture.
